Dear Roy:

Words cannot express our gratitude for the work of the Blitz Home Builders in Covington, LA. It was truly a blessing for our affiliate and our homebuyers to have such a committed group of skilled volunteers. I know the heat was unbearable, and we had a few challenges during the week, but overall it was a true success! Our family partners, Cynthia Lewis, Catherine James, and Isis Brown will always have the memory of the caring and generous people who gave their time and talent to work beside them to achieve their dream of homeownership.

We will continue to keep you posted on the progress of Hope Village II and your partner families. God bless you and your continued commitment to work towards eliminating substandard housing.

In partnership,
