Roy Zaborowski
14013 N. Canterbury Drive
Phoenix, AZ 85023

Dear Roy:

We at Wichita Habitat for Humanity, Inc. want to thank the Blitz Home Builders for their generous efforts in helping us with our Wonder Week 2010 – building seven homes in eight days. Your contributions and volunteers you provided helped tremendously in completing the houses on time.

The Blitz Home Builders brought amazing house leads and other dedicated members of your organization to Wichita to work alongside our community volunteers and house leads. We all learned how to pull together to complete the seven houses in eight days. The dedication of your members to pay their own travel expenses, lodging and come to serve is remarkable. We commend the Blitz Home Builders for their efforts and dedication.

It is incredible how Habitat uses mostly inexperienced volunteers to start construction on seven houses from ground level and completely finish them ready to move in, in just eight days. We know that people don't understand how this can be done and only when they experience the build can they truly enjoy the satisfaction and thrill of seeing the transformation.

We give God the credit for all the good that is accomplished with our volunteers and donors (those who live in our community and who travel from afar) who graciously give of their time and talents in helping us provide decent and affordable housing for the families in our program.

Again, we thank you and all the Blitz Home Builders for their efforts and help in making Wonder Week 2010 a great success. We will complete 11 houses on South Victoria this year in our new village for a total of 18 houses in 2010.

Our blessings go to your organization in the coming year. It has been a privilege serving with the Blitz Home Builders.

Blessings,
